

Driving change for those impacted by **PERIPHERAL NEUROPATHY**

RESEARCH

- » **Peripheral Neuropathy Research Registry (PNRR):**
PN biobank containing DNA, plasma, serum and data, available for research
- » **Clinical Research Training Scholarships (CRTS):**
early career PN research scholarships
- » **IMAGiNe Study funding:**
creating a database and biobank for research of Anti-MAG peripheral neuropathy
- » **Research grant funding:**
available for novel research ideas to advance the understanding of peripheral neuropathy

ADVOCACY

Advancing progress through advocacy, successfully lobbying for federal funding for peripheral neuropathy research through the DoD and NIH

AWARENESS

Raising global awareness about the widespread impact of PN, and showcasing how our efforts create positive change for the entire PN community

EDUCATION

Resources on our website, via webinar and print, provide information for patients, their families and healthcare providers
